

## Should children wear school uniform?

Most schools have a school uniform which children have to wear when they are at school. Lots of people think children should wear school uniform but others think they should not.

On the one hand, children should wear school uniform because it is smart. If everyone is dressed the same, it is obvious which school they go to. This is important for school trips.

On the other hand, children should not have to wear a school uniform because wearing their own clothes is more comfortable. School uniform is also a lot more expensive.

In my opinion, children should not wear school uniform because I think it is important for children to be comfortable in class.
